

EMA Observer Report - French Championship 2007

I was the official observer at the French Championship 2007 in Paris, 14 April.

My report is very simple, because everything was very well organized by Laurent Mahé and his team.

All requirements were adhered to. Everything went smooth. I encountered no complaints, only happy players and a good atmosphere.

The referee, Stéphane Parcollet did a good job, assisted by Laurent.

Conditions for the players were very good: nice venue, good snacks & refreshments, good tiles, calculators at each table, and I want to give a special mention to the nice, stable tabletops.

There was a very high level of information, both regarding the tournament itself: practical/logistical issues and info about prizes, and also regarding the events arranged in the evening and the days before and after.
